## choosing your size

The following charts have been devised to help you choose a size that will fit.

**How to use the measurements**

1. The insole sizes listed are based on measuring the base of the shoe from edge to edge (as shown in the diagram), so if you measure your foot, you will need to allow room either end for your foot to sit comfortably within this area.
2. Measuring the sole of one of your existing shoes is another good way to ensure a good fit.
3. We cannot guarantee the fit of the upper as allowances need to be made for wider or higher than average feet.

NB. Australian customers should use the USA Size as listed, however, if you are unsure, please use the insole width/ball girth measurements.

### Kids jelly flat conversions for:

#### HSC83 Sailor

USA SIZE	EURO SIZE	UK SIZE	INSOLE LENGTH Centimetres	INSOLE WIDTH Centimetres
8	25	7	16	6.7
9	26	8	17	7.0
10	27	9	18	7.3
11	28	10	19	7.5
12	29	11	20	7.8
13	30	12	21	8.1
1	31	13	22	8.4
